## ADVANTAGES OF ANYTIMEWORK

### **No Hidden Fees**

Aren't you tired of the fine print and hidden fees buried beneath the service contracts of so many web hosting services? We are as well and that's why our hosting service offers free setup for your website and absolutely no hidden fees whatsoever. Our service contract is truly a what-you-see-is-what-you-get experience.

### **24/7 support with 1 hour response guarantee**

Forget long holds, busy signals and non responsive customer service. We pride ourselves in resolving problems quickly and taking care of any issues that might arise right away. Our web hosting service offers 24/7 Support with a one-hour response time guarantee and our average response time is a mere 25 minutes. Should you face a problem with your website, our experienced and thorough technical support representatives will get you up and running right away.

## **99.9% uptime (uptime is monitored by independent third party services)**

Reliability is one of the most important factors for a Website hosting service. If you run a business, your website reliability may mean the difference between lost sales, or increased profits. That's why our website hosting service guarantees 99.9+ percent uptime, monitored by independent third party services. Day or night, you can be confident in the knowledge that your website will continue to attract visitors to your website, completely uninterrupted by outages or downtime.

## **Free Domain for Life**

Your domain name is the most important part of your website. Like your personal name, it uniquely identifies you and like your own name, it should be permanent enough to establish brand recognition in the minds of your visitors. Our website hosting service offers a free domain name for life. With our website hosting service, there are absolutely no charges or renewal fees with your domain name, and it's yours to keep forever.

## **Free Domain Name Transfer**

Do you have a registered domain name?? Free domain name transfer is provided for all our clients who purchase our web hosting plan. Here we not only transfer your domain name for free but your expiry date will be extended for another one year!! Free of cost!!

## **Plenty of disk space and bandwidth**

Your valuable files need a huge storage space and plenty of bandwidth. Our website hosting service offers several plans with different storage options. Our smallest plan alone provides you with a whopping 15 Gigabytes of hard drive space and 300 Gigabytes of data transfer. This is more than enough space to store tens of thousands of your precious memories stored in photos, along with your usual work files.

## **Money back guarantee**

We stand by our commitment to your satisfaction with our website hosting service. That's why we offer a solid, no questions asked 30-day money back guarantee. In the unlikely event that you are not satisfied with our service in any way, just let us know and your money will be cheerfully refunded, with no haggling and no hassles.

## **Multiple domains and various hosting plans to fit your budget and needs**

We can also host multiple domains host as many domains as you'd like. From one to one million. We have four web hosting plans for both Windows and Linux servers. What this means for you is that you can establish unique niches using different domains and capture business revenue on multiple fronts. Each hosting plan offers progressively larger storehouses of capacity and bandwidth, from 15 GB to 40 GB.

## Instant account activation - No waiting

When you decide to sign up for our website hosting service, you will have instant account activation. There will be no waiting, and no delays. Just as soon as you are ready, your website will up and running and begin drawing visitors to your site, day in and day out, and you can start building your online business and start generating revenue.

## Multiple email accounts with spam filter

Our hosting service offers you the ultimate convenience in email. Each person in your business can have their own email account or use a control panel to create new email accounts instantly. When traveling, just use or web mail feature, or create catch-all email accounts such as [info@anytimework.com](mailto:info@anytimework.com) which will capture all emails, even those with misspelled addresses. And our spam filter and SPF protection will reduce the junk mail.

## Two ways to upload your files

Our Website hosting service makes it easy to upload files to your website. If you're comfortable with command line Internet tools, you can use FTP to load your files. On the other hand, if you prefer a graphical user interface then just use our web based file manager. Either way, updating your web site will be a snap.
